ECOWATER ANTI-SCALE SYSTEMS

Environmental Choice for Water Treatment

PTT™ Anti-Scale Media

Reduces hard water scale from forming in plumbing and appliances.

Up-flow Design

Increases contact time with media for improved scale reduction and higher flow rates.

By-pass Valve

Allows for easy maintenance and servicing.

Coconut-Shell Carbon*

Filters the water throughout the home without compromising water flow. Removes chlorine taste and odor and eliminates the need for separate carbon filter changes.

Multi-Wrap Fiberglass Reinforced Tank with Limited Lifetime Warranty

Durable; doesn't deteriorate, rust, or corrode.

Distributors

Distributors exhibit excellent flow rates.

No Electricity

Simplifies installation, maintenance and reduces electrical hazards.

No Salt or Added Chemicals Needed

Uses environmentally friendly "green" technology for areas with water or brine-discharge restrictions.

Zero Waste Water

No backwashing required and zero discharge.

Standard Plumbing Connection

1" NPT Male connection for easy installation. Larger 1-1/4" and 1-1/2" plumbing adapters available.
